

QUALITY OF LIFE AND COMMUNITY INTERVENTION AND ORGANIZATIONAL INTERVENTION

INTRODUCTION

This research group was created with the aim of creating, within the area of social psychology, a specific line of study in the field of community psychology and around a fundamental topic such as the quality of life. Over time, other social intervention professionals have joined the research team, forming an interdisciplinary team of social workers, sociologists and social psychologists. The main interest of the researchers is to improve the quality of life. In this respect, their work is focused on the most deprived people, such as vulnerable groups of immigrants, the elderly, people with health problems or people at risk of social exclusion.
