

● TRANSLATION AND SPECIALIZED LANGUAGES

INTRODUCTION

This research group of the Department of Translation and Interpretation specializes in the digital publishing, with historical and research objectives, of books translated exempts from copyright. Furthermore, its works included perform touristic translation and translations revisions. Thus the effort of the 8 research members might very well be of interest for virtual libraries who want to publish their documents and as well for companies dedicated at publishing specialized books.

RESEARCH TOPICS

- Concept and didactics of special-purpose languages and general and specialised translation.
- Concept and didactics of specialised translation.
- Ideology and manipulation in specialized languages.
